Yes, that's right.

Did you see the Standard Times coverage of yesterday's event?

Hi Anita - lets keep the 10% extra in the \$80m hybrid estimate. As I recall this is just for those MUs north of MU24, correct?

We'll have to also do this for the 2 CAD cell approach at \$80m and the updated 100%T&D approach at \$80m.

I'll wait with baited breath!

Thanks - Dave

PM Subject
Alt 4 Hybrid

Hi Dave,

Per my voice mail, when I double checked the alternative before sending it to you this morning, I noticed a discrepancy in the dredge volumes. I am double checking those, and want to make sure they are consistent with the volumes reports and the assumptions.

So, if you want to change the assumption to not include the 10% cleanup passes, I could make that change now in the Hybrid.

I will have the estimate to you tomorrow.

Anita
